DETAILED ACTION

1. This action is in response to amendment filed 9/21/2006. Claims 1, 11, 15 and 16 were amended. Claims 4 and 13 were cancelled. Claims 1-3, 5-12, 15-16 are pending. Applicant's arguments/ amendments but they are not persuasive. The Examiner would like to point out that this action is made final (See MPEP 706.07a).

Claim Rejections - 35 USC § 102

2. Following the amendment filed 9/21/2006, previous 102(e) rejection has been withdrawn.

Response to Arguments

3. Applicant's arguments filed 9/21/2006 have been fully considered but they are not persuasive.

Regarding Applicant's argument that the Office Action's "non-statutory obviousness-type double patenting rejection is improperly using an additional reference," Examiner respectfully disagrees and would like to point out MPEP 804, Requirement of a Double Patenting Rejection, Form Paragraph 8.36 - Rejection, Obviousness Type Double Patenting - With Secondary Reference(s).

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims

Art Unit: 2131

are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. **Claims 1-16** of the instant application No. 10/006929 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 4, 5, 9-12, 17-20, 22 and 25-27 of U.S. Patent No. 6,912,668 in view of DeKoning et al. (U.S. Patent No. 6,073,218).

Patent No. 6,912,668 discloses all the elements in the instant Application 10/006929 except for "broadcasting a message from the first AMF to the other AMFs sharing access to the first resource so as to acquire access to the first resource". DeKoning et al. discloses: "broadcasting a message from the first AMF to the other AMFs sharing access to the first resource so as to acquire access to the first resource" in Column 4, Lines 10-11, Column 9, Lines 48-53, Column 10, Lines 4-8 and Column 14, Lines 5-6. Therefore, it would have been obvious to one with ordinary skill in the art at the time the invention was made to use the teachings of DeKoning et al. in

Art Unit: 2131

conjunction with U.S. Patent No. 6,912,668 for the benefit of transmitting a message to all entities on a network.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
